

Amacker + Schmid AG

Solutions for coated abrasives
since 1962

Welcome

Challenges, the driving force behind.

Since 1962, Amacker + Schmid AG has been meeting the requirements of the market, and constantly strives to master new challenges.

Our mission is to keep setting new milestones in the development and building of machinery for the abrasives industry.

We can proudly count on the great and long standing experience of our employees, and we have made it to our business to simplify our customer's daily work with innovative machines and plants as well as by providing a first-class service.

We look forward to achieving innovative solutions in continued collaboration with you.

Pascal Amacker
Owner of Amacker + Schmid AG

Amacker + Schmid AG

Innovation is our passion. Since 1962.

Amacker + Schmid AG based in Frauenfeld, Switzerland, is a family-run business in the third generation. Since 1962 the company has developed, built and marketed machines and plants for the abrasives industry throughout the world. The portfolio ranges from very simple machines to fully automatic plants in all common processing widths.

The quality of the products and the close cooperation with the customer are central points at Amacker + Schmid AG. The longtime experience makes it possible to react individually on the customer requirements and to find the best, specifically tailored solutions.

Amacker + Schmid AG has a constantly evolving machine park in Frauenfeld, Switzerland. This allows customers to

operate and test different machines with their material to guarantee an optimal matching between machine and material.

Amacker + Schmid AG will convince you with ...

- Professional know how since 1962.
- All machines and plants in highest quality, produced in Switzerland.
- Customer proximity on a partnership base.
- Custom-tailored solutions.
- Continuous innovation.
- High flexibility.

You can find more information about the company and the products on www.amackerschmidag.com.

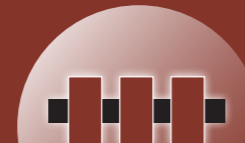

Product lines

Everything from a single source.

As the specialist for converting coated abrasives, Amacker + Schmid AG covers all production steps with a wide range of machines and plants.

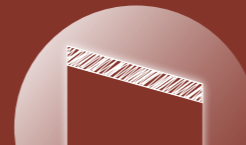

Additionally, several machines for the punching of discs and cutting of sheets were successfully launched.

The whole product range is continuously expanded.

Roll slitter

Slitting of very fine to extremely coarse materials.

Skiving

Skiving, scuffing, pointing, gluing, drying and tape application.

Presses

Belt presses and roller presses for narrow belts, wide belts and segmented belts.

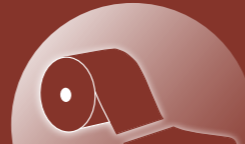

Unwind stations

Mechanical, semi-automatic or shaftless unwind stations.

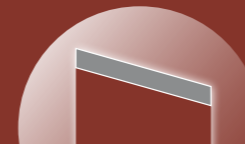

Flexing machines

Highly efficient flexing of narrow rolls and jumbo rolls.

Cut-to-length machines

Cutting to length sheets/blanks with different cutting systems.

Tape applicators

Gluing and flush cut of the tape.

Belt slitters

Slitting of short as well as very long abrasive belts with knife holders or fixed knife sets.

Discs/Sheets

Punching of discs and cutting of sheets.

Service & Support

The customer comes first.

Since the foundation of Amacker + Schmid AG, a first-class service and a comprehensive support have been first priority. Whether in a daily customer contact, a technical support via video call or in trainings – the customer comes always first. The customer satisfaction is the foundation for a close cooperation on a partnership base.

The long-standing experience of our experts guarantees also a professional assessment and execution of machine overhauls and maintenance work. Amacker + Schmid AG will continue to expand its Service & Support area to guarantee an even better support and assistance for its customers.

Spare and wear parts

Thanks to the high quality and rugged design, the machines and plants of Amacker + Schmid AG are used for decades.

That is why ensuring spare and wear parts is a major strength and an important part of the overall supply.

Amacker + Schmid AG serves their customers with a wide range of mechanical spare parts, rapidly available wear parts and covers also a comprehensive stock of pneumatic and electric components. Amacker + Schmid AG is your partner with first-class service – also for very old machines.
